What changed since the 2025 edition

Actual 2025 market value came in at **USD 2.7 billion**, above our 2025 forecast of USD 2.4 billion, mainly because AI diagnostics grew 61% instead of the expected 35%.

We now forecast **USD 3.4 billion for 2026**. Fully integrated EHR coverage reached **57% of public hospitals** in 2025 (from 38%).

Segments (2025 actual)

Segment	Value (USD m)	Share	YoY
Telemedicine	720	27%	+18%
EHR & hospital IT	930	34%	+29%
Health apps & wellness	440	16%	+33%
AI diagnostics	610	23%	+61%

Implications

> Vendors should prioritise radiology and pathology AI, which together make up 70% of AI-diagnostics spending. Data residency rules require patient data to stay in Saudi Arabia, which favours vendors with local hosting.
